

### New Product Ideas

We launch terry towel series which made of mixing Cotton and Modal fibre. This perfect combination is enhance the characteristic of each partner. Modal improves the look, touch and absorbility of conventional cotton towel.

The natural fibre "Lenzing Modal(R) is the luxury cellulose fibre per se. This microfine fiber is extracted from wood and sets new silky soft standard of quality in home textile.

The slogan of "Make The World a Softer Place" can fit especially for terry products as we can bring the use and softness of the natural fiber into our terry towels products.

The character of the fiber are :

- \* the purest natural quality
- \* particularly easy to care for
- \* perfect absorbency
- \* more moisture than cotton
- \* brilliant colour
- \* soft and silky on your skin
- \* entirely pesticide-free
- \* meet the strictest purity standard : Oekotex Standard 100

Lets bring all the best quality of luxury to your bathrooms.
